Relevant Assurance Standards for conducting reviews and audits

All BICA Licensees conducting reviews or audits of financial information contained within the BLR are required to have adhered to the International Standard on Quality Management 1 (ISQM 1)⁶ framework. Quality control systems, policies and procedures are the responsibility of the BICA Licensee. The provisions of the below assurance standards are premised on the basis that the firm from which the BICA Licensee operates has implemented ISQM 1 requirements.

For the avoidance of doubt, the below requirements are extracts from the relevant assurance standards. When performing either a review or audit reference should be made to the relevant standards when designing the nature, extent and timing of the review/audit procedures. Links to the full standards and their requirements are included within this BICA Guidance Note

ISRE 2400⁷

The key objectives of a review of the financial information in the BLR performed under ISRE 2400 are as follows:

1. Obtain limited assurance, primarily by performing inquiry and analytical procedures, about whether the financial information in the BLR is free from material misstatement, thereby enabling the Independent Practitioner to express a conclusion on whether anything has come to the Independent Practitioner's attention that causes the Independent Practitioner to believe the BLR is not prepared, in all material respects, in accordance with the Act.
2. Report on the financial information in the BLR and communicate, as required by ISRE 2400.

In all cases when limited assurance cannot be obtained and a qualified conclusion in the Independent Practitioner's report is insufficient in the circumstances, ISRE 2400 requires that the Independent Practitioner either disclaim a conclusion in the report issued for the engagement or, where appropriate, withdraw from the engagement if withdrawal is possible under applicable law or regulation.

⁶ International Standard on Quality Management (ISQM) 1, Quality management for firms that perform audits or reviews of financial statements, or other assurance related service engagements

⁷ This is an extract from ISRE 2400. A full list of requirements when performing review engagement under ISRE is included here: [ISRE 2400](#)

In performing a review of the financial information contained within the BLR, *consistent with the requirements of ISRE 2400*, BICA Licensees at a minimum, should undertake the following:

Materiality

1. The Independent Practitioner shall determine materiality based on their understanding of the intended user of the BLR and apply this materiality in designing the procedures and in evaluating the results obtained from those procedures.

The Understanding

1. The Independent Practitioner shall obtain an understanding of the entity and its environment, and the applicable financial reporting framework⁸, to identify areas in the financial information where material misstatements are likely to arise and thereby provide a basis for designing procedures to address those areas.
2. The Independent Practitioner's understanding shall include the following:
 - (a) Relevant industry, regulatory, and other external factors including the applicable financial reporting framework;
 - (b) The nature of the entity
 - (c) The entity's accounting systems and accounting records; and
 - (d) The entity's selection and application of the accounting policies.

Designing and Performing Procedures

1. In obtaining sufficient appropriate evidence as the basis for a conclusion on the BLR, the Independent Practitioner shall design and perform inquiry and analytical procedures:
 - (a) To address all material items in the BLR, including accounting policies; and
 - (b) To focus on addressing areas in the BLR where material misstatements are likely to arise.

Evaluating Evidence Obtained from the Procedures Performed

1. The Independent Practitioner shall evaluate whether sufficient appropriate evidence has been obtained from the procedures performed and, if not, the Independent Practitioner shall perform other procedures judged by the Independent Practitioner to be necessary in the circumstances to be able to form a conclusion on the BLR.

2. If the Independent Practitioner is not able to obtain sufficient appropriate evidence to form a conclusion, the Independent Practitioner shall discuss with management and those charged with governance, as appropriate, the effects such limitations have on the scope of the review.

Evaluating the Effect on the Report

1. The Independent Practitioner shall evaluate the evidence obtained from the procedures performed to determine the effect on the Independent Practitioner's report.

ISA 805⁹

The key objectives of an audit of the financial information in the BLR performed under ISA 805 are:

1. To obtain reasonable assurance about whether the financial information in the BLR is free from material misstatement, whether due to fraud or error, thereby enabling the Independent Auditor to express an opinion on whether the financial information in the BLR is prepared, in all material respects, in accordance with the Act.
2. To report on the financial information in the BLR and communicate as required by the International Standards on Auditing (ISAs), in accordance with the Independent Auditor's findings.

In all cases when reasonable assurance cannot be obtained and a qualified opinion in the Independent Auditor's report is insufficient in the circumstances for purposes of reporting to the intended users of the financial information in the BLR, the ISAs require that the Independent Auditor disclaim an opinion or withdraw (or resign) from the engagement, where withdrawal is possible under applicable law or regulation.

In performing an audit of the financial information contained within the BLR, consistent with the requirements of ISA 805¹⁰, BICA Licensees at a minimum, should undertake the following:

All matters discussed under the following sections denoted above under ISRE 2400:

1. *Materiality*

⁸References to the financial reporting framework throughout the report is The Act.

⁹ [ISA 805](#)

2. *The Understanding*
3. *Evaluating Evidence Obtained from the Procedures Performed*
4. *Evaluating the Effect on the Report*

Designing and Performing Procedures¹¹

1. As required by, and explained further in, ISA 315 (Revised) and ISA 330, audit evidence to draw reasonable conclusions on which to base the auditor's opinion is obtained by performing:
 - (a) Risk assessment procedures; and
 - (b) Further audit procedures, which comprise: (i) Tests of controls, when required by the ISAs or when the Independent Auditor has chosen to do so; and (ii) Substantive procedures, including tests of details and substantive analytical procedures.

MINIMUM REQUIRED PROCEDURES

As stipulated by the Guidance Notes on the Statement of Turnover, BICA Licensees are required to perform the below minimum required procedures¹²:

1. Review/examine bank statements, sale & purchase records and other financial records of the businesses.
2. Review/examine a bank analysis prepared by businesses to verify whether the business' financial activity aligns with the financial information included in the BLR. Review/examine reconciliations prepared by the business for any material variances as well as any material deposits that do not represent revenue.
3. Where the business is a VAT registrant, compare the calculated Business Licence turnover and VAT Exclusive total supplies for the comparable year and determine whether there are any material variances.
4. If the business has related party transactions, request the price charged or revenue allocated for these transactions, as well as the total cost of providing the goods or services and the arm's length price charged in comparable transactions. If the revenue amount reported by the business for related party transactions is less than the total cost of providing the goods/services, verify whether the difference is material and consider whether adjustments to turnover is required.

While performing the above minimum required procedures, BICA Licensees serving as Independent Practitioners/Independent Auditors should perform the following, as applicable:

1. Obtain and review/examine reconciliations from the business for any material variances noted. The nature, timing and extent of the procedures performed to conclude on the reasonableness of the material variances should be tailored according to the scope of the engagement (i.e., whether review or audit). The extent of verification should be consistent with the expectations outlined under the section titled "*Relevant Assurance Standards for conducting reviews and audits*".

2. Consider whether any material amounts which are not able to be reconciled should be included in turnover and evaluate the impact on the review conclusion or audit opinion, as appropriate. Refer to **Appendices 2 and 3** to this Guidance Note for modified review and audit reports, respectively.

¹² Minimum required procedures are to be performed using materiality and in line with the risk assessment as denoted in the technical analysis section of this Guidance Note. Any material differences noted in the performance of these procedures should be brought to the attention of management or those charged with governance, as appropriate. In the event the Independent Practitioner/Independent Auditor is unable to resolve differences with either management or those charged with governance, the Independent Practitioner/Independent Auditor is expected to consider modifications to the Review Report/Audit Report as appropriate.

CONCLUSIONS/OPINIONS

1. Following the formation of a conclusion in the case of a review or opinion in the case of an audit, the Independent Practitioner/Independent Auditor should prepare an Independent Practitioner's/Independent Auditor's report, in the form attached in **Appendices 2 and 3** to this Guidance Note.
2. The BLR should be completed and signed by management or those charged with governance of the business and appended to the Independent Practitioner's Report or the Independent Auditor's report, as appropriate.
3. The Independent Practitioner's Report or the Independent Auditor's report and signed BLR should all be scanned and appended to the online business licence portal by the Business.

Report on the Audit of the Business Licence Return

Opinion

We have audited the financial information of [Name of Entity] (the Taxpayer) set forth in the attached Business Licence Return for the year ended December 31, 20X1, which comprise the following schedules:

1. Reconciliation to the Financial Statements for the year ended 31 December 20X1;
2. Statement of Revenue Items for the year ended 31 December 20X1;
3. Revenue Exclusions for the year ended 31 December 20X1;
4. Calculation of Turnover for the year ended 31 December 20X1;
5. VAT Reconciliation for the year ended 31 December 20X1;
6. Final Reconciliation for the year ended 31 December 20X1; and
7. Notes and Accounting Policies to the Business License Return.

In our opinion, the Business Licence Return of the Taxpayer for the year ended [31 December 20X1], is prepared, in all material respects, in accordance with the Business Licence Act, 2023, Business Licence Regulations, 2023 [and the Guidance Notes on Turnover issued by the Department of Inland Revenue]¹⁷.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Business Licence Return* section of our report.

¹⁷ Only to be retained if the guidance notes on Turnover provides instructions on the determination of turnover.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion

Independence

We are independent of the Taxpayer in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Emphasis of Matter - Basis of Accounting and Restriction on Distribution and Use

We draw attention to Schedule 7 Notes and Accounting Policies to the Business Licence Return, which describes the basis of accounting. The Business Licence Return is prepared to report to the Financial Secretary on the turnover of the Taxpayer as defined under the provisions of the Business Licence Act, 2023 and the Business Licence Regulations, 2023. As a result, the Business Licence Return may not be suitable for another purpose.

Our report is intended solely for the Taxpayer and the Financial Secretary and should not be distributed to or used by parties other than the Taxpayer and the Financial Secretary.

The Business Licence Return does not comprise a full set of financial statements prepared in accordance with [IFRS Accounting Standards, US GAAP, the IFRS for SMEs Accounting Standard). Our opinion is not modified in respect of this matter.

Responsibilities of Management [and Those Charged with Governance]¹⁸ for the Business Licence Return

Management is responsible for the preparation of this Business Licence Return in accordance with the Business Licence Act, 2023, Business Licence Regulations, 2023 [and

¹⁸ **THIS IS BASED ON THE PRESUMPTION THAT THERE IS NO DIFFERENCE IN RESPONSIBILITY BETWEEN MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE.** If responsibilities are divided – e.g., – management is responsible for preparing financial statements and those charged with governance are responsible for overseeing the Company’s financial reporting process (e.g., separate audit committee who has oversight of the financial statement preparation process) – these responsibilities needs to be separately disclosed in the report. This is expected to be a rare occurrence in smaller private companies. Amended report would be as follows:

provisions of the Guidance Notes on Turnover issued by the Department of Inland Revenue] and for such internal control as management determines is necessary to enable the preparation of the Business Licence Return that is free from material misstatement, whether due to fraud or error.

In preparing the Business Licence Return, management is responsible for assessing the Taxpayer's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Taxpayer or to cease operations, or has no realistic alternative but to do so.

[Those charged with governance are responsible for overseeing the Taxpayer's financial reporting process.]

Auditor's Responsibilities for the Audit of the Business Licence Return

Our objectives are to obtain reasonable assurance about whether the Business Licence Return is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Business Licence Return.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Business Licence Return, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Taxpayer's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty

exists related to events or conditions that may cast significant doubt on the Taxpayer’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the Business Licence Return or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Taxpayer to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Regulatory Requirements¹⁹

Pursuant to the Statement of Turnover Guidance Document issued by the Department of Inland Revenue, we confirm that we have performed the minimum procedures outlined under Calculation Basis, and where applicable examined the relevant documents stipulated therein in order to test the completeness and accuracy of the financial information reported by the Taxpayer in the Business Licence Return. We have nothing to report in respect of this matter.

If we conclude that the Business License Return has not been prepared in all material respects in accordance with the provisions of the Business Licence Act, 2023 and Business License Regulations, 2023 our responsibility is to modify our report.

The matters addressed by other law, regulation or national auditing standards (referred to as “other reporting responsibilities”) shall be addressed within this section unless the other reporting responsibilities address the same topics as those presented under the reporting responsibilities required by the ISAs as part of the Report on the audit of the financial statements section. The reporting of other reporting responsibilities that address the same topics as those required by the ISAs may be combined (i.e., included in the Report on the audit of the financial statements section under the appropriate subheadings) provided that the wording in the auditor’s report clearly differentiates the other reporting responsibilities from the reporting that is required by the ISAs when such a difference exists.

Adverse Opinion

We have audited the financial information of [Name of Entity] (the Taxpayer) set forth in the attached Business Licence Return for the year ended December 31, 20X1, which comprise the following schedules:

1. Reconciliation to the Financial Statements for the year ended 31 December 20X1;
